

## **Why donate by debit order?**

### 1. It saves you time, money and effort:

- Each cheque you issue costs between R15.00 – R25.00
- An average of 1.25% of bank charges is levied when you draw cash from an ATM.
- A R25.00 bank charge is levied when you draw cash over the counter.
- Internet banking might be free but you still need to remember and take the time to make the donation.

### 2. By donating using a debit order you will help HAWS save time and work on administrative and bookkeeping duties – more time for our small workforce to spend on the important part – our animals. The debit order facility we acquired will provide HAWS with all the various monthly documentation we require. The more debit order donations we receive the less we pay for this effective administration service.

### 3. By donating to a charity you will qualify for a tax benefit. HAWS issues NPO tax certificates to our donors at the end of each financial year.

### 4. Your donation will be helping HAWS help animals – a very worthy cause.

## **What is your donation worth to HAWS?**

- This qualifies you as a member of our society.
- The more members HAWS has the stronger the society.
- A donation of R100 a month will assist in vaccinating 4 animals.
- With R350 we can sterilize an animal.
- R450 sponsors an animal for a month
- Even a minimum donation of R20 will assist towards any number of expenses that the shelter incurs each month.
